## Summary

Growth Product Manager specializing in acquisition, activation, and retention for consumer subscription products, with a track record of scaling growth through PLG, experimentation, and 0 to 1 launches. A heavy AI practitioner who uses it daily, from writing specs and analyzing data to prototyping and shipping internal tools.

## Work Experience

### **Microsoft** • Product Manager 2 - *M365 & Copilot Subscriber Growth*

May 2025 - Present / New York, NY

Drive end-to-end growth strategy for Consumer M365 and Copilot experiences that improve retention and increased subscriber growth by 20% YoY to date. Own the checkout experience, optimizing conversion across the purchase funnel. Revamp the MVP trial journey to improve activation and boost paid conversion rates, while building a scalable framework for rapid experimentation. Launched a 0→1 EDU SKU to test new market segments, unlocking 500K new subscribers annually.

### **Microsoft** • Product Manager 2 - *First Run Experiences*

Sep 2022 - April 2025 / New York, NY

Owned the top-of-funnel acquisition for M365, redesigned the Windows onboarding to increase subscriptions and LTV. Built new infrastructure to accelerate experimentation velocity, which enabled faster validation of growth hypotheses. Scaled engagement strategy that grew free desktop app MAU by 7% across Word, Excel, and PowerPoint.

### **Microsoft** • Product Manager

Sep 2020 - Aug 2022 / Redmond, WA

Launched and optimized growth experiments across M365 FRE offer pages. Improved UX, which increased consumer subscriptions by 14%. Redesigned Windows 11 acquisition flows, increasing paid activation rates by 10%.

### **Microsoft** • Program Manager Intern

June 2019 - Aug 2019 / Redmond, WA

Led a team of engineers and designers to create a personalized Office upsell experience, in the Windows onboarding process by utilizing user intent.

### **SiriusXM** • Customer Retention Marketing Intern

June 2018 - Aug 2018 / New York, NY

Analyzed data to strategically develop tactical campaigns to retain current users. Used competitive analysis research to improve streaming app and gain subscribers.
